Hundred Families Without Fuel: Situation Regarded With Apprehension.

SOURCES OF SUPPLY CUT OFF BY BLOCKADE

Weather Moderating to Some Extent: Warm Spell Will Bring Big Floods.

Boise, Jan. 7.—This city faces a serious coal and wood famine than has probably ever experienced and worse than was at first anticipated. The situation is viewed with alarm all coming at the time when severe and unusual winter weather is being experienced. Probably 500 families are without coal tonight. With the Oregon line badly crippled, thus delaying coal enroute from the mines, which are practically forced to suspend business because of the snowfall, the situation is becoming more serious. The general high prices charged for coal and wood are a source of complaint and in what is considered a dangerous situation.
